Cloud Service Description (200 words or less)

IntelliBoard is a leading learning analytics platform designed to enhance data-driven decision-making for educational institutions and corporate training programs. It integrates with learning management systems like Moodle, Blackboard, Canvas, and D2L as well as student information systems, collaboration tools, and HR systems. The platform provides near real-time, comprehensive analytics through customizable dashboards, reports, and automated notifications, enabling users to monitor learner engagement, performance, and trends. Key features include predictive modeling to identify at-risk learners, compliance tracking, and tools to improve retention and engagement. IntelliBoard offers two versions: IntelliBoard Lite for basic data exploration and IntelliBoard Pro for advanced predictive analytics.
